## How to use this sheet / Ise kaise bharna hai

**1. List your obsessions.** Baar-baar aane wale khayal, images, dar ya doubts (jaise 'haath gande hain', 'darwaza khula reh gaya') column 2 mein likho.

**2. Write the trigger.** Column 3 mein likho yeh khayal kis cheez se shuru hota hai - jagah, cheez, time, person ya situation (public toilet, gas stove, number 13).

**3. List the compulsion / ritual.** Column 4 mein likho khayal ke baad aap kya karte ho - haath dhona, check karna, counting, praying, reassurance. Mental rituals bhi likho.

**4. Rate distress (SUDS 0-100).** Column 5 mein likho ritual NA karo to kitni tension hogi - 0 (bilkul nahi) se 100 (sabse zyada). Neeche scale dekho.

**5. Avoidance.** Column 6 mein likho - kya aap us trigger/situation se BACHTE ho (avoid karte ho)? Haan / Nahi, aur kaise.

**6. Did you resist the compulsion?** Column 7 mein likho - kya ritual rokne ki koshish ki? (Poora roka / Thoda roka / Nahi rok paaye).

**7. Frequency & time.** Column 8 mein likho din bhar mein kitni baar aur kitna time (minutes) ritual mein jaata hai.

**Golden rule / Yaad rakho:** Pehle sabse aasaan (low SUDS) item se shuru karo, phir dheere-dheere higher SUDS wale items pe jao. Exposure ke time ritual mat karo - tension apne aap kam ho jayegi (habituation). Honestly bharo.

## SUDS - Subjective Units of Distress (0-100) / Tension ka scale

| 0-20 | 21-40 | 41-60 | 61-80 | 81-100 |
