

CLINICAL CASE HISTORY-CHILD

SOCIO-DEMOGRAPHIC DATA:

Name: _____ UHID No. _____
Parents Name _____ Age: _____ Gender: _____
Date of Birth: _____ Religion: _____ Educational status: _____
Socio-economic status: _____ Place of residence: _____
Address: _____ Aadhar No. _____
Mob. No.: _____ Date of Admission: _____
Informants: Name: _____ Relationship: _____
Duration of the acquaintance: _____ Case worked up by: _____
Trainee status: _____ Source of referral: _____
Reliable and Adequacy: _____

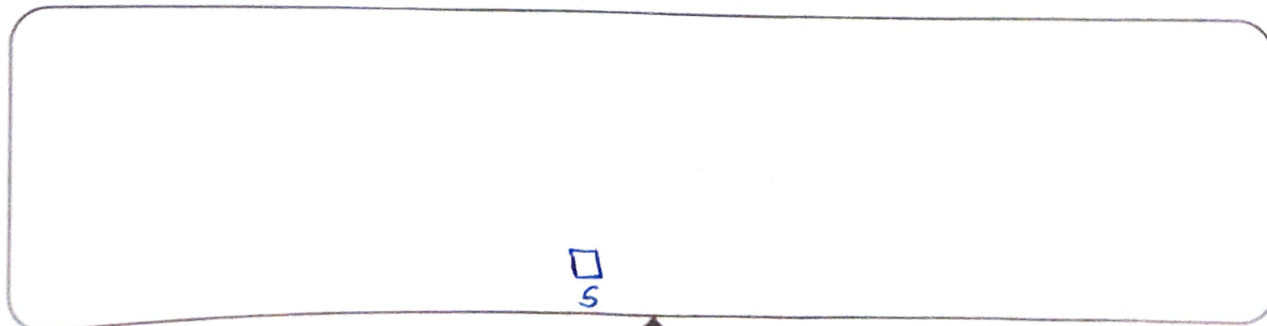

CHIEF COMPLAINTS:

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____

Reason for Consultation: _____

FAMILY HISTORY:

1. Genogram:

2. Family history of medical/psychiatric illness: _____
3. Living arrangements: _____
4. Primary care giver: _____
5. Description of the parents: _____

6. Home and Neighbourhood: _____
7. Family life and relationships: _____
8. Child rearing practices: _____
9. Any other relevant information about the family: _____

PERSONAL HISTORY:

1. Significant prenatal factors: _____
2. Significant perinatal factors: _____
3. Health status during pregnancy: _____
4. Postnatal development: _____
5. Birth and Early Development: Normal delivery/ Caesarean delivery/ birth cry present or absent _____
6. Developmental milestones (motor/ social/ adaptive/ language): _____
7. Caseworker's impression about the milestones: _____

8. Current developmental status (general intelligence/ speech/ language stability/self-help skills): _____
9. Behaviour: Easy going/ Frequent temper- tantrums: _____
10. Physical Illness: _____

11. *Schooling history:* _____
- a. *Age of initiation:* _____
 - b. *Adjust to school:* _____
 - c. *Change of school/ medium/syllabus:* _____
 - d. *Scholastic performance:* _____
 - e. *Parent's expectations about performance:* _____
 - f. *Degree of parent's satisfaction with the performance:* _____
 - g. *Appropriateness of parent's expectations about the performance* _____
 - h. *Peer relationship in school:* _____
 - i. *Extra-co-curricular activities in school:* _____
 - j. *Reading/writing /arithmetic skills:* _____
 - k. *Any other school related problems:* _____
 - l. *Teacher's perceptions about the patient as reported by the parent's:* _____
 - m. *If school discontinued- when and reason thereof* _____
 - n. *Details of the school report if available:* _____
12. *Habits/ Interests/ Talents:* _____
13. *Sexual History: (menarche/ pubertal status/ masturbatory practice/ sexual experiences attitudes: normal or otherwise)* _____

GENERAL TEMPERAMENT AND PERSONALITY ATTRIBUTES:

- 1. *Emotionality:* _____
- 2. *Attention and Concentration:* _____
- 3. *Activity:* _____
- 4. *Aggression:* _____
- 5. *Sociability:* _____
- 6. *Rhythmicity:* _____
- 7. *Motivation:* _____
- 8. *Trustworthiness or dependability:* _____
- 9. *Moral Standards:* _____
- 10. *Adaptability:* _____
- 11. *Any particular strengths in the child:* _____
- 12. *Any other:* _____

HISTORY OF PRESENT ILLNESS:

1. Total Duration: _____
2. Onset: Abrupt/ Acute/ Sub acute/ Insidious: _____
3. Course: Episodic/ Chronic/ Chronic with Fluctuating: _____
4. Progress: Static/ Deteriorating/ Improved: _____
5. Predisposing Factor: _____
6. Precipitating Factor: _____
7. Perpetuating Factor: _____

History of Present illness contd...

8. Biological Functioning: Sleep/ Appetite/ Libido/ Self-care/ Bowel & bladder control
9. Occupational Functioning: Regularity/ Leave
